

The Fire Service College
Moreton-in-Marsh England

UK Fire & Rescue Service - schedule of available courses

To make a booking or for further information about these or any of the College's other courses please contact us via email frsmt@fireservicecollege.ac.uk

| Course code | Course name | Course start date | Course end date | Description | Price per person (plus accommodation) |
|--------------|--|-------------------|-----------------|--|--|
| FSBRG 02_11 | Fire Safety Building Regulations & Guidance | 19/03/2012 | 05/04/2012 | The course provides delegates with an in-depth coverage of the current fire safety Building Regulations and associated guidance. | 2995 |
| FSEP 02_11 | Fire Safety Engineering Principles | 23/01/2012 | 27/01/2012 | This is a unique opportunity for delegates to receive guidance and interpretation of the BS7974 series as an introduction to fire safety engineering principles. | 1095 **DISCOUNTED PRICE** |
| FSF1 03_11 | Fire Safety Foundation - Theory | 26/03/2012 | 30/03/2012 | This course provides the knowledge and understanding of basic fire safety principles and addresses the technical, legislative and practical skills required to provide a sound foundation for further learning. Delegates can consolidate their learning in the practical course FSF2 which always follows FSF1. | 695 |
| FSF2 01_12 | Fire Safety Foundation - Practice | 02/04/2012 | 04/04/2012 | This course follows on from the theoretical general principles of fire safety introduced by FSF1 and concentrates on the practical application of skills required for the role of fire safety inspecting officer. | 495 |
| FSHCMB 03_11 | Fire Safety Management in Healthcare Premises - Firecode | 06/02/2012 | 10/02/2012 | This course provides delegates with understanding of the relevant Firecode guidance in relation to new healthcare build submissions and of alterations of existing premises. | 1395 |
| FSHCMC 02_11 | Fire Safety Management in Healthcare Premises – Fire Risk Assessment | 13/03/2012 | 17/02/2012 | Delegates will be led through an overview of The Regulatory Reform (Fire Safety Order) and discuss its practical application and enforcement in relation to healthcare premises. | 1395 |
| FSLRAA 03_11 | Fire Safety Legislation and Risk Assessment Auditing | 20/02/2012 | 24/02/2012 | Delegates will be led through a detailed examination of The Regulatory Reform (Fire Safety Order) and discuss its practical application and enforcement. | 795 |
| FSPFI 09_11 | Practical Fire Investigation | 30/01/2012 | 03/02/2012 | This programme has been developed and is delivered in conjunction with the National Policing Improvement Agency (NPIA) for both fire investigators and forensic investigators. Accordingly, the course is attended by fire officers, forensic investigators and others involved in multi-agency Level 2/3 investigations. This is a blended programme, consisting of internet based pre-course study (20hrs), followed by a one-week practical course of lectures, incident ground exercises, fire scene examination and syndicate work. Accredited by BTEC this course has a level 3 qualification available. | 2195 |

| | | | | | |
|--------------|---|------------|------------|--|------|
| FSSHLP 03_11 | Fire Safety Solutions in Higher Life Risk Premises | 05/03/2012 | 09/03/2012 | A course which allows delegates to study relative guidance documents relating to higher life risk premises. The guidance is then applied in a risk appropriate manner in order to achieve acceptable standards of safety in a variety of plan based exercises. Course quality assured using the ISO 9001-2000 quality control system. | 895 |
| FSSNRP 03_11 | Fire Safety Solutions in Non-Residential Premises | 27/02/2012 | 02/03/2012 | A course which allows delegates to study relative guidance documents relating to non-residential premises. | 845 |
| HMDIMF 11_11 | Hazardous Materials Detection, Identification & Monitoring - Scenario | 29/02/2012 | 02/03/2012 | This course is designed to provide delegates trained to HMDIM level with a range of scenario-based exercises to enhance knowledge and skills acquisition and retention through correct selection, deployment and interpretation of the National Resilience detection, identification & monitoring (DIM) suite of equipment. | 1485 |
| HMDIMF 12_11 | Hazardous Materials Detection, Identification & Monitoring - Scenario | 07/03/2012 | 09/03/2012 | | |
| HMDIMF 13_11 | Hazardous Materials Detection, Identification & Monitoring - Scenario | 12/03/2012 | 14/03/2012 | | |
| ICAM 04_11 | Incident Command Area Manager | 30/01/2012 | 03/02/2012 | This module offers delegates opportunities to draw on the exceptional expertise and experience within the UK emergency services for leading & delivering successful conclusions to incidents & operations. This course is placed at the interface of tactical & strategic operations and therefore considers the important role of strategic decisions as part of single & multi-agency working | 2295 |
| ICCWM 01_11 | Incident Command Crew & Watch Manager | 19/03/2012 | 06/04/2012 | This course provides the full range of knowledge, understanding and skills for a person new to the role of Incident Commander at Crew or Watch Manager level. It allows the opportunity to practice and demonstrate those skills in a range of realistic simulations using the Fire Service College incident ground. The focus is on the outcomes of the National Occupational Standard WM7 and includes ten Skills for Justice/IPDS developmental modules which relate particularly to Incident Command at this level. ICCWM adopts a blended approach to learning and development which includes 12 months access to our innovative Incident Command e-learning portfolio. | 5995 |
| ICF2e 05_11 | Incident Command Foundation 2 | 27/02/2012 | 02/03/2012 | This course allows to demonstrate their risk assessment, decision making, planning and prioritising and objective setting skills. The course consists of three elements, pre course assessable learning module, a 5 day practical based assessable residential programme and a post course internet community of practice. The pre course learning is designed to ensure delegates have the sufficient underpinning knowledge to successfully complete the practical based module. | 2545 |

| | | | | | |
|--------------|--|------------|------------|--|--|
| ICSM 07_11 | Incident Command Station Manager | 20/02/2012 | 24/02/2012 | To contribute to continuing professional development and preparation of personnel to act as level 2 Tactical Commanders at operational incidents. Ideal for those aspiring to, or selected for, an operational role as a middle manager. The focus of this course is on the outcomes of the Fire Service National Occupational Standards for Emergency Fire Service module 2 and includes all the development modules that relate to Incident Command at this level. | 1795 |
| OSFBI 05_11 | Fire Behaviour Training Instructors | 26/03/2012 | 05/04/2012 | This course will enable and qualify delegates to devise and deliver theoretical and practical training in fire behaviour, flashover and backdraught, in a safe and effective way. | 2795 **DISCOUNTED PRICE** |
| OSMFF 03_11 | Marine Firefighting | 20/02/2012 | 02/03/2012 | To provide delegates with continuous professional development in the specialist operational role of managing firefighting in port areas and on board ships. | 3745 |
| USSWAH 06_11 | Urban Search & Rescue Safe Working at Height | 08/02/2012 | 09/02/2012 | Emergency services personnel who are required to operate with the USAR modules issued under the DCLG National Resilience programme and have an operational responsibility for accessing elevated/exposed or otherwise hazardous environments for work positioning or rescue purposes. | 850 |
